

## **TCS NQT 2027**

As TCS accelerates the enterprise adoption of AI and Generative AI, students joining us will have opportunities to work on AI-led transformation programs at scale, supported by enterprise AI platforms, deep industry context, and global technology partnerships.

| <b>TCS Eligibility Criteria:</b> |                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Courses & Disciplines            | Batch of 2027 Only.<br>Listed highest qualifications—B.Tech., B.E., M.Tech., M.E., M.C.A., M.Sc, M.S. from any discipline/department.                                                                                                                                                                                                                                                                                                           |
| Course Type                      | Only Full-Time courses will be considered<br><b><i>(Part Time / Correspondence Courses will not be considered)</i></b>                                                                                                                                                                                                                                                                                                                          |
| NIOS                             | Students who have completed their Secondary and / or Senior Secondary course from NIOS (National Institute of Open Schooling) are open to apply if the other courses are full time.                                                                                                                                                                                                                                                             |
| Percentage                       | Candidates must have a minimum aggregate of 60%<br>OR<br>6 CGPA in all semesters up to the latest declared results.<br>AND<br>Offer is valid only if the final degree or provisional certificate confirms 'FIRST CLASS' in the highest qualification, completed within the stipulated time.                                                                                                                                                     |
| Backlogs / Arrears / ATKT:       | <b>Application &amp; Test Process:</b> The student should not have more than 1 (one) pending or active backlog / arrear / ATKT at the time of appearing for the TCS Selection process.<br><b>Onboarding Process:</b> At the time of onboarding, no pending backlogs / arrears / ATKT will be permitted.<br><b>Please note: All pending backlogs / arrears / ATKT should be cleared within the course duration stipulated by the University.</b> |
| Gap / Break in Education         | Ensure any academic gaps during your education are declared and supported with valid proof; breaks should not exceed 24 months.                                                                                                                                                                                                                                                                                                                 |
| Work Experience                  | Students with prior work experience of up to two years are eligible to apply for this hiring process ( <b>Applicable only for postgraduate students</b> ).                                                                                                                                                                                                                                                                                      |
| Age                              | A student should be <b>18 to 28 years</b> of age to participate in the TCS Hiring Process.                                                                                                                                                                                                                                                                                                                                                      |

| Sl.No | Important Notes                                                                                                                                                                                                                                                    |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1     | Only students graduating in the year 2027 are eligible to apply, and this must be clearly indicated in their TCS Application Form                                                                                                                                  |
| 2     | All students must ensure that they use their <b>Personal Email ID Only</b> .<br>Please note: Email ID CANNOT be changed once submitted.                                                                                                                            |
| 3     | Reference ID series starting DT/CT 2023 onwards to be used, as older IDs will not be accepted; if students to have a reference ID prior to 2023, they should contact us for profile deletion and re-registration should be completed before the registration date. |
| 4     | Please do eligibility check for the candidate data at your end too and eliminate any ineligible profiles.                                                                                                                                                          |

**Candidates will be assessed and shortlisted for the following roles based on their overall performance across all stages of the selection process:**

| Offer Category                                                                                                                               | UG (CTC) | PG (CTC)  |
|----------------------------------------------------------------------------------------------------------------------------------------------|----------|-----------|
| <b>Prime</b> : Exceptional candidates who demonstrate outstanding aptitude and advanced proficiency in emerging technologies.                | 9.09 LPA | 11.59 LPA |
| <b>Digital</b> : Candidates who exhibit excellent aptitude and strong capability in leveraging digital technology.                           | 7.09 LPA | 7.39 LPA  |
| <b>Ninja</b> : Candidates who display in-depth knowledge of core subjects, technology-oriented mindset and ability to learn quick and adapt. | 3.46 LPA | 3.62 LPA  |

### **Registration Process:**

1) Visit <https://nextstep.tcsapps.com/indiacampus/#/>

2) Click “**Register Now**”

3) Select category as “**IT**”

4) Fill in details to generate a **Reference ID**

5) Click “**Apply for Drive**”

If a candidate already has a Reference ID, please ensure “**Apply for Drive**” is clicked.

The registration window for the assessment process will be open from **8 May to 15 May 2026**.

**Kindly note, the candidate will receive mail for Application Form completion.**

**TCS National Qualifier Test (NQT) with Integrated Test Pattern:**

| Section                                     | Duration (in Minutes) |
|---------------------------------------------|-----------------------|
| <b>Part A - Foundation Sections</b>         |                       |
| Numerical Ability                           | 25                    |
| Verbal Ability                              | 25                    |
| Reasoning ability                           | 25                    |
| <b>Part B - Advanced Section</b>            |                       |
| Advanced Quantitative and Reasoning Ability | 25                    |
| Advanced Coding                             | 90                    |
| <b>Total Duration (in Minutes)</b>          | <b>190</b>            |

As TCS accelerates its AI and Generative AI-led transformation for clients globally, we remain equally committed to building future-ready talent for this new era.

Students joining through this program can look forward to opportunities in emerging areas such as AI/ML, data engineering and analytics, cloud, and automation, while working under a **Human + AI delivery model**.

TCS also provides intensive upskilling opportunities to help students stay aligned with evolving industry demands and build resilient careers. Detailed information regarding test dates, eligibility criteria, and the end-to-end hiring process will be communicated to your institution through subsequent official correspondence.

### **AI-focused Career Opportunities for Students**

Students hired through this drive may be aligned to future-ready work across areas such as AI and data engineering, machine learning, deep learning and GenAI, cloud data platforms, intelligent automation, and AI-enabled software engineering.

Career pathways may include AI and Data tracks, including roles such as ML Engineer and GenAI-focused engineering roles, along with broader digital roles where AI is embedded into delivery.

As the industry landscape undergoes significant shifts in required skills and expertise, TCS offers students a strong opportunity to remain relevant, continuously upskill, and build careers for the new era.

Institutes from the parent institute. The eligibility criteria will remain the same as mentioned above.

### **Disclaimer**

- Eligibility checks will be conducted at various stages of the hiring process
- Any ineligible candidature or misrepresentation of information will lead to disqualification.
- TCS does not send job offers or hiring-related communications from unofficial email IDs such as Gmail, Rediffmail, Yahoo Mail, Hotmail, etc.
- TCS does not ask candidates to pay any money during the recruitment process.
- TCS is not associated with any external agency or company for employment offers.
